

PANAMA MODERNIZES ITS ONLINE TAX SYSTEM

On July 25th, 2016, the Panamanian Tax Authority, Dirección General de Ingresos (DGI), implemented a new platform to improve the process related to tax payments in Panama.

The E-Tax 2.0 is an online tax system, which was approved by Resolution 201-3050 of June 22nd, 2016, in order to provide greater efficiency in the operations carried out by DGI.

The idea of launching E-Tax 2.0 was born by the need to adapt DGI to the technological advances and to ease the tax-related process for users and taxpayers, by introducing a total renovation of the tax system.

The access to E-Tax 2.0 is through the web page of DGI: dgi.mef.gob.pa, and then accessing the link “DG en línea”. Users and taxpayers will be able to present tax statements, obtain good standing certificates, non-taxpayer certificates, make queries, track procedures and others by accessing the online system.

Among the improvements of E-Tax 2.0 is the compatibility with multiple browsers including Safari, Opera, and Mozilla Firefox that were not available through the previous system.

Users and taxpayers hope that the E-Tax 2.0 system becomes an effective tool for presentation and tracking of processes before the tax authority of Panama.

If you need more information regarding tax systems, feel free to contact us.
